## FIND YOUR WAY AROUND CHICAGO ONCE YOU ARE HERE . . .

Chicago is a walking city with an easy-to-navigate downtown grid. Madison Street divides the city north and south, while State Street divides it east and west. The State/Madison intersection marks the origin of Chicago's address grid system. Addresses are relative to the distance from that mark, with eight blocks to every mile. So an address of 3600 North Clark means that it is 36 blocks north of Madison.

## CHICAGO TRANSIT AUTHORITY

The [Chicago Transit Authority](http://transitchicago.com) (CTA) operates the nation's second largest public transportation system – serving the City of Chicago and 40 neighboring communities by rail and bus. Pay cash for single trip rides or purchase a reloadable Transit Card or Unlimited Ride Pass for added savings. For full fare information and maps, visit the Chicago Transit Authority website at [transitchicago.com](http://transitchicago.com).

**'L' Trains:** Not all of Chicago's eight 'L' lines are "elevated." They do, however, connect the city via above-ground, street-level and subway trains and serve 144 rail stations all over town, making the 'L' one of the most efficient and affordable methods of transportation available. Two lines operate 24 hours a day: the Blue Line, which connects the airport and downtown, and the Red Line, with service between the North and South Sides via downtown.

**BUSES:** More than 100 routes lace the city; buses stop every few blocks. Several lines operate 24 hours a day. Exact change is required for cash fare.

It is standard to tip the driver about 15-20% of the fare, plus \$1-2 per bag if the driver helps you with luggage. Please note that all fares are subject to change. Sample taxi fare between downtown and O'Hare Airport is \$40-50, and between Midway Airport is \$30-35.

## *Must-See Chicago Attractions*

---

### **SKYDECK CHICAGO**

The tallest building in the Western Hemisphere

beckons with its eye-popping views of Chicago and beyond. Located atop the Willis Tower (formerly the Sears Tower), Skydeck Chicago attracts nearly 1.3 million visitors each year to its 103rd floor observation deck, which rises 1,353 feet (412.4 meters) above street level. On a clear day, you can spot many of Chicago's landmarks and scan the horizon to Michigan, Wisconsin, Indiana and Illinois. The brave of heart can step out onto The Ledge, a glass-enclosed balcony, for a view unlike any other.

---

### **JOHN HANCOCK OBSERVATORY**

Located in the heart of the Windy City's

tourist district, the John Hancock Observatory — with its one-of-a-kind open-air Skywalk — is open until 11 p.m. daily. The fastest elevators in North America zoom to the 94th floor — 1,000 feet (305 meters) up — in only 40 seconds. The real fun is spotting Chicago landmarks, such as Wrigley Field, Navy Pier, and glamorous marinas. Guests enjoy a multimedia Sky Tour and can contemplate Chicago's history on the 80-foot (24 meters) history wall.

---

### **NAVY PIER**

Encompassing more than 50 acres (20 hectares) of prime Chicago

lakefront territory, Navy Pier is truly a city within the city. With shopping, restaurants, parks and gardens, museums, stages and attractions galore, this Chicago landmark attracts millions

every year. Fireworks light up the Chicago skyline twice a week during the summer months, and the 150-foot (45.7 meters) Ferris wheel operates year-round, weather permitting. It's no wonder that Navy Pier is often considered one of the top things to do in Chicago.

---

### **MILLENNIUM PARK**

It may be one of Chicago's newest places

to visit, but Millennium Park has quickly become a destination of choice for travelers and locals alike. With hundreds of free concerts and performances offered throughout the year at the dramatic Jay Pritzker Pavilion; an immense, walk-up-and-touch sculpture known affectionately as "The Bean"; and a 5-acre (2.2 hectares) garden to explore, Millennium Park lives up to the Chicago's official Latin motto: Urbs in Horto — City in a Garden.

---

### **THE MAGNIFICENT MILE**

On Michigan Avenue, starting at

the Chicago River and heading north for, yes, 1 mile (1.6 kilometers) to Oak Street, lies a district of architecture, shopping, dining and business that has few peers. Aptly named, the Magnificent Mile is a mecca for tourists and business people, and bolsters Chicago's claim as one of the great cities on the world stage.
